

MAY NAME CARLISLE GEN. BRAGG SAYS

SPOKEN OF AS CHOICE OF GOLD DEMOCRATS.

The Wisconsin Man Talks of the Probable Action of the Indianapolis Meeting—Bryan Will Not Talk of His Populist Nomination—Democrats Win Alabama.

New York, Aug. 4.—General Edward S. Bragg, who was a delegate-at-large from Wisconsin to the recent Chicago convention, repudiated the democratic platform adopted there and in an interview announced that there would be a third ticket put up, known as the national democratic ticket, and that John G. Carlisle would probably be the presidential candidate.

"The provisional national committee meets at Indianapolis August 7, and we have received pledges from thirty states," said he, "that they will have delegates present. It is a foregone conclusion that a third ticket will be put in the field. The logical candidate will be John G. Carlisle. He represents the interests of true democracy, and is the strongest man for the place. He will save Kentucky beyond a doubt from Bryan, and will probably carry Missouri, Michigan and Wisconsin.

"In Indiana has been developed lately a strong sound money feeling, and I had advised before I left Chicago that Iowa would give McKinley a majority of more than 50,000. In Governor Boies' own county the 'sound money' men turned down the silverites.

"Anything to defeat Bryan is our motto, but we want to keep together the democratic organization. We must have a haven of refuge for true democrats, who would either stay at home on election day or else vote for the populist candidate."

DIVISION OF THE ELECTORS.

Chairman Jones Says He Has Not Yet Decided Upon an Arrangement.

Washington, Aug. 4.—Senator Jones of Arkansas, chairman of the democratic national committee, says he has not yet considered any plan looking to a division of electors between the democrats and populists. He is not yet ready to announce all or a part of those who will be members of the executive committee, which will have the immediate management of the campaign. The question as to whether an advisory committee will be appointed has not been decided.

Representative Russell of Georgia, in speaking of the situation in his state resulting from the attitude assumed by Candidate Watson, said: "Watson cannot hurt the chances of the democratic ticket in Georgia, no matter what his efforts may be. The state will go for Bryan and Sewall."

Representative Turner of Virginia, who declined a renomination to congress because he was a gold man and because his constituents were for silver, is in the city. "Virginia," he says, "is for silver, and will give the Bryan ticket a majority in November. As between McKinley and Bryan the people of the state will vote for Bryan. If a third ticket is put in the field I do not know what effect it will have."

AT INDIANAPOLIS.

Gold Standard Democrats Preparing for Their Convention.

Indianapolis, Ind., Aug. 4.—William Bynum, of the executive committee, representing the gold-standard democrats, has arrived here to stay until after the meeting of the provisional national committee Friday. The Indianapolis hotels received orders for quarters for the provisional committee meeting. Kentucky, Ohio, Illinois and a few other states, it is announced, will send delegates besides the regularly accredited members of the committee. Mr. Bynum predicts that the nominee for president will be Palmer, Morrison, Bragg or Carlisle.

The Indiana gold committee is now ready for active work. S. O. Pickens, the chairman, will ask that gold standard democrats be nominated for congress in each of the thirteen districts. Chairman Holt of the democratic state central committee and Chairman Gowdy of the republican committee returned to their duties yesterday. Holt says he has not been informed when the populists will be ready to take up the question of presidential electors with the committee.

BRYAN AND THE POPULISTS.

He Will Not Speak on the Question of Accepting Their Nomination.

Lincoln, Neb., Aug. 4.—Mr. Bryan declines to be interviewed on the rumor that he declines the populist nomination, saying he has nothing to add to the statement he gave out at the close of the convention Monday. He announced the change he has been contemplating in his trip east next Friday. Instead of leaving here Friday evening, over the Burlington, he will leave at 2:05 p. m. Friday afternoon, over the Rock Island, and will reach Des Moines, Iowa, at about 9 o'clock the same evening. He will stay over night in Des Moines, where a reception as been planned. The party will leave Des Moines at about 7 a. m., Saturday, reaching Chicago at about 7:30 p. m.

A FEW LINES MORE ABOUT THE WEDDING

VERY QUIET CEREMONY AT NEW YORK.

Miss Grace Wilson and Cornelius Vanderbilt, Jr., Triumph Over Many Obstacles—Bride Six Years Older Than Her Husband—Three Wilsons Have Married Wealth Up to Date

New York, Aug. 4.—Cornelius Vanderbilt, Jr., and Miss Grace Wilson were married at noon Monday at the residence by the Rev. William H. Post, assistant rector of St. Thomas' church. The wedding was private.

After the ceremony congratulatory cablegrams were received from the prince of Wales, the earl and countess of Pembroke and the duke and duchess of Marlborough. The latter is a cousin of the bridegroom.

Mr. Vanderbilt's present to the bride was a broche containing thirty diamonds surrounding a large sapphire. His present to the best man was a pin of pearls. Cornelius Vanderbilt, Jr., is the oldest living son of Cornelius Vanderbilt, and a great-grandson of the celebrated Commodore Vanderbilt, who laid the foundation of the family's great fortune. The young man is 22 years of age and was graduated last year at Yale. He was the first member of his family to attain a university degree. After his graduation he went abroad and spent part of the winter traveling in company with Mr. and Mrs. Ogden Goellet, with whom was also Miss Grace Wilson. It was while he was on this

four that the attachment sprang up which has culminated in the marriage. Mr. Vanderbilt, on his return to New York, took a subordinate place in the offices of the New York Central railroad, it being his father's desire that he should learn the details of railroad management.

Miss Grace Wilson is not a member of an old New York family. Both her father and mother are southerners, who settled in New York after the close of the civil war. Richard T. Wilson is a self-made man and is supposed to be the possessor of \$10,000,000.

Three of the Wilson children have done well in marriage. Miss May Wilson married Ogden Goellet, a member of one of New York's oldest families. Marshall Orme Wilson married Miss Caroline Astor, a sister of John Jacob Astor, whose fortune is estimated to be \$10,000,000. Miss Belle Wilson married Michael Herbert of England, a man of social position, but not of great wealth. He is a son of Lord Herbert of Lea and brother of the earl of Pembroke.

Moore Brothers Fall at Chicago. Chicago, Aug. 4.—The speculative deal in Diamond Match and New York Biscuit stocks has come to an end. The Moore brothers have failed. The greatest speculation ever known in Chicago has culminated in the failure of the people who were behind the deal. The Chicago stock exchange was adjourned at 10 o'clock this morning for an indefinite period. This action was decided upon at a meeting held last night, at which were the representative bank presidents, the members of the stock exchange committee and a number of prominent capitalists. It was the general opinion that it would be the wisest possible move to close the stock exchange for a period.

Des Moines in Western League. Des Moines, Iowa, Aug. 4.—Manager Traffey has received word from the president of the Western Baseball league, which assures Des Moines a place in that league next year.

THEY MADE A PLAN TO CORNER PORK

MONTREAL CAPITALISTS ARE IN THE DEAL.

Believe They Have Enough September Delivery To Control the Market—Idea Is To Get Even with the Chicago Market—A Line of Campaign Drawn Up.

Montreal, Que., Aug. 4.—The last twenty-four hours has developed the fact that a combine in Chicago pork has been formed here, and those interested include a number of well-known moneyed men. It seems that some months ago, when September pork was between \$8.50 and \$9.50 a barrel, a number of speculators, chief among them being Mr. Perley, the rich lumberman of Ottawa, and Rudolph Forget of the brokerage firm of L. J. Forget & Co. of this city became large buyers. Between them all they accumulated some 200,000 barrels, which they have held in spite of the drop which followed their purchase. All of this was of the September option, and it is by hanging on to that that they intend to get even and make the Chicago shorts take to the woods if possible.

Saturday evening those interested met and a line of campaign was drawn up. First of all an order for 50,000 more barrels was placed and an explanation of how matters stood generally was sent out to all the holders of importance throughout Canada. The whole dominion is long on September, and the holdings, it is said, aggregate a tremendous figure.

The combine urges all holders of September pork to hold to what they have under all circumstances. A fund has been accumulated by the members of the combine, and they propose when September arrives to ask the delivery of their option. They say that with their combined holdings this will be an impossibility, and that the Chicago bears, whom they are after, will be driven to cover in short order. They hope in this manner to not only recover all that they have lost, but make a handsome profit besides.

Washburn Answers the Bishop.

Boston, Mass., Aug. 4.—George F. Washburn of this city, eastern member of the national executive committee of the people's party, has issued a challenge to Bishop John P. Newman of San Francisco to name a single populist who is known as an anarchist. He says in his letter: "Let me inform you that 90 per cent of the populist party are native born American citizens, comprising mostly the sturdy farming element, which for years the statesmen of both old parties proudly alluded to as the 'bone, sinew and stability of the country.' Again, there were more delegates in our convention who owned their own homes and paid taxes than in that of any other political party. Lastly, the leading anarchist, Herr Most, is for the single gold standard and the republican party, and I defy you to name one in our ranks as an off-set to this."

Poase After a Boy Murderer.

Findlay, O., Aug. 4.—Amos Decker, 19 years of age, shot and fatally wounded George Miles, of the same age, Monday evening. The boys quarreled over a joke which some one had played upon a butcher, and also over the butcher's daughter, to whom both were paying attentions. The ball entered the stomach, and the boy expired in two hours. As soon as the shooting was done, young Decker, aided by his father, ran to the edge of the city, while a mob of 200 men, armed with shot-guns, revolvers and pitchforks, started after him. The mob took along a rope, and if the murderer is caught he will, it is said, be hanged to the nearest tree. The sheriff, police force and a posse of officers, as well as the citizens, are still in pursuit.

Hoarding Still Continues.

Washington, Aug. 4.—The gold withdrawals Monday amounted to \$465,400 in coin, and \$15,500 in bars, leaving the actual gold reserve in the treasury \$110,085,890. The total balance at the close of business was \$256,367,637.

Sentiment in Connecticut.

New Haven, Conn., Aug. 4.—A conference of the gold element was held Monday. Nearly all of the leaders of democracy expressed themselves in favor of a third ticket.

ALL ARE DISCONTENTED.

General Sympathetic Strike Expected at Cleveland.

Cleveland, O., Aug. 4.—What appears to be the start of an extended strike in sympathy with the strikers in the Brown Hoisting and Conveying Machine company, took place Monday, when nearly 100 employees of the Van Wagoner and Williams company quit work.

The employees who struck are molders, brass workers and core makers. A deputation of employees from Van Wagoner and Williams visited the city foundry in an endeavor to persuade the workmen to throw down their tools, thus anticipating an order from the Central Labor union calling for a general strike, this now being confidently expected within a few days. Before they were able to accomplish their purpose they were dispersed by the police. The Warner and Swazey Machine company, the Chandler and Price Printing Press company, and the Standard Sewing Machine company will close because they cannot get castings on account of the anticipation of a general strike which prevails. The police made arrests yesterday of strikers and sympathizers for blocking the sidewalks.

Mayor McKisson gave out the following interview: "I consider the situation at the Brown works very serious. Every company in the Fifth regiment has now been called out. There are more militia in camp here, however, and if necessary they will be called out. If necessary to protect the lives and property of citizens, I will call out every regiment of militia in the state. We have been forced to take heroic measures, and from now on we will have order no matter what we have to resort to."

COLLISION ON SANTA FE.

Two Passenger Trains Crash Together Near Dean Lake, Mo.

Topeka, Kas., Aug. 4.—Santa Fe passenger train No. 1, which was due in this city at 4:27 Monday evening, collided with east-bound local passenger train No. 18 near Dean Lake, Mo., shortly before noon. One man was killed and eight injured. The dead: HEADY, FREDERICK, Topeka, engineer on train No. 1.

The injured: McConnell, John, Bosworth, Mo., slightly; Mudec, John W., Rodgers, Kas., not seriously; Smith, Mrs., Oklahoma, head badly injured; Morgan, W. J., Emporia, Kas., seriously injured; Budway, Leads, Wells-Fargo messenger, seriously; Barber, Curtis, Pullman porter, Chicago, slightly; Hickey, James, San Jose, Cal., fatally; McCabe, John, news agent, Marcelina, slightly.

Train No. 1 was ordered to wait at Dean Lake for the Kansas City local, but instead proceeded towards Bosworth. The collision occurred about half way between the two places. The dead and injured were brought to Topeka.

Banker Found Dead in His Bed.

Columbus, Ohio, Aug. 4.—A private telegram from Pittsburg says Walter Crafts was found dead in bed in a hotel in that city. He was president of the Commercial National Bank of Columbus. C. D. Firestone of the Columbus Buggy company, which failed on Saturday, is a director and small stockholder in the bank. Cashier Alberty, when asked whether it was a case of suicide, said marks of violence were not found, nor was there any evidence of a drug having been taken. The bank officers say that the buggy company had only \$10,000 of the bank's money, hence the theory of suicide is scouted.

Agrarian War in Illinois.

Lacon, Ill., Aug. 4.—The farmers of Steuben, Saratoga, Whitefield, and La Prairie townships met Saturday evening and formed an organization, the members of which agree not to pay cash rent for farm lands, but rent only on a share basis. This has caused a sensation among those who rent farms. They meet again next Saturday evening, and the meeting promises to be largely attended and plans will be formulated for immediate action.

City in Mourning for the Dead.

Bridgeton, N. J., Aug. 4.—Monday was observed as a day of general mourning for victims of the Atlantic City railroad horror. The whole town was draped with emblems of grief, and business places were closed. Great crowds were on the streets watching the funeral processions. The services were attended by larger throngs than were ever seen here on a similar occasion. Eight more victims were buried, making a total of twenty-five in this vicinity.

Indiana's Railroad Tax.

Indianapolis, Aug. 4.—The board of state tax commissioners has completed assessment of railroad property. The net increase in valuation is about \$60,000. The total for 1896 is \$156,259,260, as against \$156,199,465 for 1895. The miles of main track, 1896, are 6,279.88, for 1895, 6,267.52; assessment of main track for 1896 is \$123,938,565; for 1895, \$124,211,940.

Big Blaze in Philadelphia.

Philadelphia, Pa., Aug. 4.—The fertilizing works of Daniel Baugh & Sons, on the Delaware river, near Tasker street, was almost completely destroyed by fire at an early hour Monday morning. The fire originated from a large boiler of fat boiling over. The loss is estimated at \$125,000, and it is believed is covered by insurance.

NO CHANGE IS NOTED AT THE CREAM CITY

FIGHT FOR GOVERNORSHIP IS COMPLICATED.

Latest Estimate Gives La Follette 275, Schofield 240, Baensch 75, Elliott 55, Bradford 31, and Estabrook 4—German Editors Against Any Man Who Is Close to Hoard.

Milwaukee, Wis., Aug. 4.—In this city there was no new development Monday and nothing to shed any new light on the standing of the Milwaukee delegation as regards the nomination for the governorship. Following is the latest table compiled after dissecting the various claims of the rival candidates: La Follette, 275; Schofield, 240; Baensch, 75; Elliott, 55; Bradford, 31; Estabrook, 4. Total, 680.

The German editors protest against the nomination of any man closely allied with Hoard, and give warning that in case they are not heeded the same disaster that overtook the party in 1899 will again be brought on the republicans of this state. They ask the nomination of a man free from all such influences and associations. It is almost a direct command, and backed by a threat, and is signed by Edgar Coleman, editor of Der Herold, and George Koepfen, editor of Der Germania. It is reported that arrangements are being made for a combination whereby the Scofield forces will go to Emil Baensch. Against Baensch, it is whispered, that he bolted Garfield's nomination and made a number of speeches for Gen. Hancock in 1880.

LIKE THE CROP PROSPECTS.

Party of Business Men Enthusiastic Over the Outlook.

St. Joseph, Mo., Aug. 4.—A special train carrying a party of business men looking over the country reached St. Joseph this morning from Chicago after a pleasant trip through northern Missouri.

They came here direct from Quincy, Ill., and were delighted with the appearance of the crops along the country through which they passed. Haying, stacking and threshing were in progress in the various counties as they came along, and these crops, with the fine fields of corn fast approaching maturity, formed the subject of enthusiastic comments. One member of the party, Judge S. M. Knox, of Princeton, Ill., said:

"We have seen as fine fields of corn as it seems possible to look upon in any part of the country, and yet from what I have heard from Nebraska recently of the corn there, I am holding my admiration well under control. The part of Missouri that we have come through is very beautiful. Big stretches of land just rolling enough to suit the farmer who has a diversity of crops and mixes stock raising with his other pursuits, enough timber to add variety to the scene and help to catch and hold the moistures of the fine streams of running water and big fields well covered with shocks of small grain. We saw plenty of stock, but there is room for much more, particularly as they are, I understand, shipping much of it to market."

Silver Men Appointed.

Chicago, Aug. 4.—All the "sound money" members were thrown overboard by the silver majority of the democratic state committee. The five vacancies thus created were all filled with silver men. The appointments were made at noon, as follows: A. S. Trude, member-at-large, to succeed John P. Hopkins, resigned; Carter Harrison, member-at-large, to succeed R. E. Spangler, resigned; Frank W. Havill, member-at-large, to succeed William S. Foreman; A. W. Bastian, member-at-large, to succeed Ben Cable, who did not resign, but was removed; Alexander J. Jones, member from first district, to succeed A. A. Goodrich, resigned.

To Pay Sugar Bounties.

Washington, Aug. 3.—The warrants for the payment of the sugar bounties earned in 1894 (except maple sugar), the payment of which was provided for in the appropriation of \$5,000,000 in the deficiency act of 1895, were issued Monday. The proved claims were prorated, each claimant receiving under the \$5,000,000 appropriation 84 per cent of his claim. The number and amount of the beet sugar claims paid today are insignificant; in all forty-nine warrants were issued. Three warrants, amounting to \$11,944, were withheld, making the total amount of the 490 warrants issued today \$4,988,036.

Uncle Sam Prepares for War.

Washington, Aug. 4.—Monday was a great day for the manufacturers of war material, and many great corporations and firms were represented at the war and navy departments when the bids were opened for supplying a large quantity of gun carriages, mortars, shot and shell of various sizes and kinds. Probably not since the late war has the ordnance bureau of the war department been able to lay out so extensive a programme for one year's work as is now made possible by the liberal appropriations made by congress for the defense of our sea coast.

Philadelphia, Pa., Aug. 4.—Rhodes & Bros. big textile mills in Chester Creek closed Monday until further notice. Over 600 hands are affected. The cause assigned is depression in the textile trade.

LABOR PICNIC ON FAIR GROUNDS.

Arrangements Made at the Mass Meeting Held Last Night.

At a mass meeting of the labor unions held last night, it was decided to hold the Labor Day picnic at the Fair Grounds. A parade will be one of the features of the day, and there will be a ball game and other athletic sports. Smith's orchestra will play for the grand ball that will end the day's fun. Committees were named as follows:

Committee of Arrangements—Emmett Haley, A. Kapelski, M. H. Whitaker, J. Kearns, A. H. Pardee, Ernest Clemons, George Plowright, William Phelps, William Mason, M. W. McKewan, Albert Knuth, Henry Loomis, Edward Kerry, W. Dexter and Merton J. Stanton.

Grounds and Games—William Mason, A. Kapelski and J. Kearns. Flicats—M. W. McKewan, M. J. Stanton and George Plowright.

Printing and Music—M. J. Whitaker, Edward Kerry and William Phelps.

Refreshments—Edward Kerry, W. Dexter and A. H. Pardee.

To Invite City Officials and Fire Department—George Plowright, M. J. Stanton and William Mason.

To Invite Railway Trainmen—E. Clemons, W. Dexter and William Mason.

Emmett Haley was appointed a committee of one to see the railroad officials with regard to securing reduced rates.

CYCLERS SPEND THE DAY HERE

Mr. and Mrs. Clist, of Mukwonago, Are on a Pleasure Trip.

Mr. and Mrs. J. J. Clist, of Mukwonago, arrived in the city last evening, on their bicycles, after making a tour of the surrounding summer resorts. Mrs. Clist is a well known long-distance rider, and during the entire trip she has "set the pace," and found it but little work to outwheel her husband. They left, last evening, at 6 o'clock, for home, via. Johnstown, and Mrs. Clist said they expected to reach their destination before dark—providing Mr. Clist didn't lag out.

HE HAS CENTURY BARS ENOUGH.

Orion Sutherland Will Not Make Any More One Hundred Mile Trips.

Ex Alderman Orion Sutherland, the only man in Janesville who can make a century at any time he wants to, says that he will take no more one hundred mile trips. Mr. Sutherland retires only on account of the hunting season, and will pay more attention to shooting than riding hereafter. But his numerous friends think that his retirement is of short duration, although he is now the possessor of twelve "Century bars," eight of which he has obtained this season.

ODD FELLOWS ARE FOR GOLD.

Straw Vote Taken on the Train Last Night Was Conclusive.

County Clerk W. J. McIntyre took a "straw vote" on the train while the Odd Fellows were returning from Evansville last night, to find out the sentiment on the currency question. There were fifty men in the party, and the vote stood:

For present gold standard..... 42

For free silver..... 5

Undecided..... 3

Total..... 50

DEATH ENDS EARTHLY WOES

James Galbraith.

James Galbraith's death calls forth these words from the Perthshire Herald:

Many of our readers will learn with regret the death of Mr. James Galbraith, which took place on Tuesday, the 4th inst., at his residence, Lindsays Farm, Ingatstone, Essex.

Mr. Galbraith had been suffering for some time from a complication of diseases, but the immediate cause of his death was Bright's disease of the kidneys.

The deceased was the youngest son of the late Alexander Galbraith, Croy Cunningham, Killlearn, and was well known in the agricultural world.

About sixteen years ago, along with his brother, Archibald, he commenced the exportation of Clydesdale stallions to America, and the firm thus started rapidly developed into the well-known firm of Galbraith Brothers.

On the decline of the traffic in Clydesdales with America, Mr. Galbraith entered upon a lease of Lindsays Farm. He was a familiar figure in show rings and other meetings of a like nature.

Of a quiet and unassuming disposition, a kind and obliging nature, he was esteemed and respected by all who knew him, and his death at the early age of thirty-nine came as a shock to his many friends in this neighborhood.

He is survived by a widow and four children, with whom much sympathy is felt in their sad bereavement.

The Scottish Farmer of July 11 says—Mr. James Galbraith, youngest son of the late Alex. Galbraith, of Croy-Cunninghame, Killlearn, has passed away at the early age of thirty-nine years.

He died on Monday at Lindsays farm, in Essex, where he had been residing for some time past; the cause of death, being Bright's disease.

Embarking with his brother Archie in the business of horse exportation about the year 1881, Mr. Galbraith played an important part in the development of the great American trade, which continued so prosperous during the eighties and early nineties.

He was well known throughout England and Scotland, being chiefly occupied buying on this side of the Atlantic, but he made frequent trips to America as well, and was much respected on both sides of the water.

His friends have been painfully aware for some time that his health was far from good, but the intimation of his early death will come as a sad surprise to many.

We desire to join in the deep sympathy for his young widow and children, which must be felt by the friends of the family in this country as well as abroad.

WORKINGMEN AND SILVER.

What are the workingmen to gain by the free coinage of silver, even if the claims of the silverites are fulfilled? The first great claim regarding free silver is that it will increase prices and thus enable the debtor class to pay their obligations in cheaper money. Putting aside the idea of dishonest repudiation, wage workers can gain nothing from this, because they are not a debtor class. They owe practically nothing, nobody trusts them, in any large amount. They are not borrowers. More than any other class in the community they pay cash for what they get. They are retail purchasers, and pay every day, week or at most, every month. But to the extent that they have any savings in the form of insurance policies or savings banks accounts, they are creditors and will be losers by any depreciation of the standard money. The value or purchasing power of every dollar of such savings will shrink to the full extent of the depreciation of the money.

What would they gain by a sudden rise in the price of commodities? Clearly nothing, since they would have to pay more for everything they consume. To the extent that food, clothing, furniture and the necessities of life rise, their real wages, the purchasing power of a day's work, is reduced. Of course, it is said that wages will rise also. This is true, but wages will not rise simultaneously with the rise in prices. It is a well established law in economics that wages are the least mobile of all economic values; and land is next in economic sluggishness. Although a rise in wages follows a rise in prices, it always lags a long way behind. In some industries, it would take six months; in some a year, and in some much longer for wages to adjust themselves to the higher prices resulting from depreciated money. During this time, the wage class would be absolute losers to the full amount of the difference; and after a year or more of the hardships accompanying a practical reduction of real wages, what will the laborer gain? Absolutely nothing. He will be where he was before the change took place; having higher money wages, but paying commensurately higher prices for everything he uses. But a day's work will purchase no more of the comforts of life than before. This is what is now going on in Japan. The fall in the value of silver has caused an increase in the price of commodities, but as yet no increase in wages has taken place.

There is no aspect of the case in which wage workers have anything to gain by the adoption of a silver standard, but they have everything to lose. They will lose in the value of all their savings; they will lose in the purchasing power of their wages, and most of all they will lose by the enforced idleness accompanying the business disturbance and bankruptcy which a radical depreciation of our standard money would create.

Greek Cabinet Has Resigned.

Athens, Aug. 4.—The Porte's demand that Greece should stop the export of war material to Crete has caused the Greek cabinet to resign, but the king refused to accept the resignation, and ordered the minister of war on his own responsibility to stop the export.

Force a Point from the Sultan.

Canea, Crete, Aug. 4.—The Turkish sultan has removed the governor of Candia, under whom recent outrages on Christians were permitted. Hassan Pasha has been appointed to the place, with orders to preserve peace. Christians are gratified.

MRS. GOOLD'S GRATITUDE

HOW SHE WAS RESTORED TO HEALTH.

Condition Before and After the Birth of Her Child.

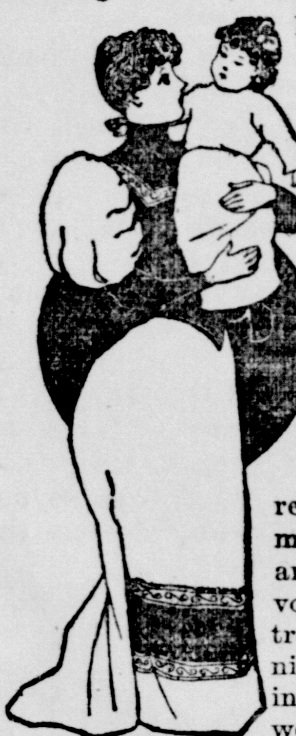

From every city, town and hamlet on this vast continent, come letters from suffering women; from those whose physicians have been unable to assist them, or from that numberless class whose confidence in Mrs. Pinkham's advice and the curative properties of her Vegetable Compound is unbounded.

Every letter received from women is recorded, and hundreds of volumes of cases treated aid in furnishing practical information for the women of to-day.

No letters are published without the request of the writer. The strictest confidence is observed. The following letter represents thousands:—
"I always enjoyed good health until six months before the birth of my babe. Then I was very weak; my back ached all the time. My physicians said I would be all right after the birth of the child, but I was not, although at that time I had the best of care. The pains in my back were almost unbearable. I had leucorrhoea in its worst form; menstruations were painful.

"Any work or care would entirely unnerve me. When my babe was 11 months old, friends persuaded me to take Lydia E. Pinkham's Vegetable Compound. Before I had taken one bottle I felt the effects. My back did not ache so badly, and I felt stronger. After taking four bottles I felt well. My ambition returned, menstruations were painless, leucorrhoea entirely cured, and I could take care of my babe and do my housework. I shall always recommend your Vegetable Compound for all women, especially for young mothers."—Mrs. H. L. GOULD, Oregon, Wis.

If Mrs. Goold had been well before the birth of her child, subsequent suffering would have been avoided. Lydia E. Pinkham's Vegetable Compound should always be taken before and after birth, in order that the system may withstand the shock.

COOPER IS CHOSEN BY RISING VOTE

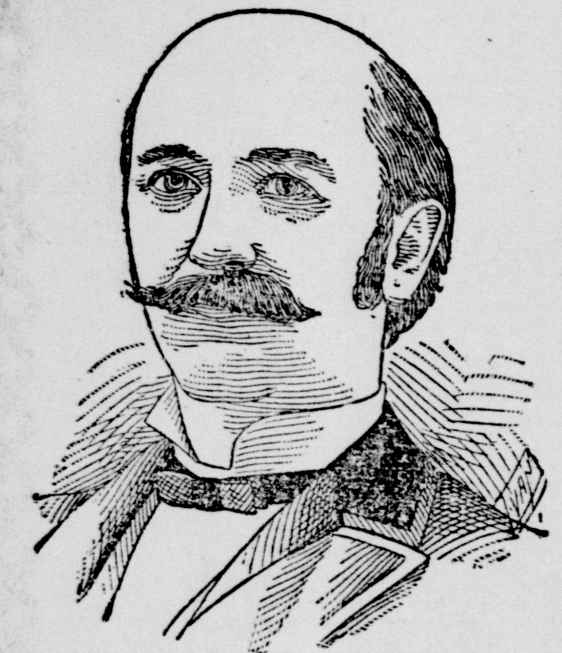

RENOMINATED BY FIRST DISTRICT REPUBLICANS.

Convention Met in Grand Army Hall, in Beloit, This Morning—C. B. Sumner Was Chairman, and A. S. Flagg, Secretary—New Congressional Committee Is Named.

Henry A. Cooper, of Racine, was renominated for congress by the republicans of the First Congressional district at Beloit this morning, the choice being made by a rising vote.

Cheers rent the air as the nominating speech was made, and great enthusiasm was manifested.

The convention met at the Grand Army hall at 11 o'clock, all the delegates being present. The reports of the chairmen of the delegations were

HON. H. A. COOPER, OF RACINE
[Renominated for Congress by First District Republicans, at Beloit, Today.]

received in place of appointing a committee on credentials, and the convention organized by electing C. B. Sumner of Walworth county, as chairman, and A. S. Flagg of Edgerton, as secretary.

Chosen By Rising Vote.

Congressman Cooper was placed in nomination by Chas. Ingersoll, editor of the Beloit Free Press, and his name was greeted with applause. At the conclusion of Mr. Ingersoll's address, Mr. Cooper was declared the nominee, by a rising vote. H. J. Smith of Racine, J. G. Manahan of Darlington, and Mr. Ingersoll were named as a committee to inform Mr. Cooper of his nomination, and he replied in one of his characteristic speeches that awakened great enthusiasm. He touched on the issues of the campaign in a forceful manner and was loudly applauded.

After three rousing cheers had been given him, the congressional committee was appointed as follows:

A. P. Colby, Union Grove, Racine county.

A. H. Kruchman, Wilmet, Kenosha county.

W. W. Chadwick, Monroe, Green county.

E. B. Swearer, Darlington, La Fayette county.

L. Holden Parker, Beloit, Rock county.

D. W. Stanforth, Elkhorn, Walworth county.

The committee met and elected W. W. Chadwick, chairman.

After adjournment, most of the delegates left for Milwaukee to attend the Republican state convention.

EUGENE ROWE ON FREE SILVER

Former Janesville Man Tells of Guatemalan Money and Business Conditions

Eugene Rowe, formerly of this city, is now in Guatemala, and in a letter to C. B. Conrad he tells of the effect of free coinage in that country. Mr. Rowe is an enthusiastic democrat. In the course of his letter, which was written at Puerto Barrios, July 17, he says:

"Well, I am here at last. Had a pleasant voyage, barring sea sickness. Puerto Barrios is merely a port and is on the whole a forlorn looking place. I go into the interior about a hundred miles from here. Wages here are higher than in the United States, and like all new countries this is overrun with men seeking employment. A dollar is the Guatemalan dollar and is worth fifty cents in our money. This is the result of free coinage, for this dollar has more silver in it than our American dollar. Gold is not in circulation, the cheaper metal having caused it to be hoarded or driven out of the country. The tropical vegetation is very pretty and tropical fruits abound."

CLAUSE WAS VOID JUDGE SALE SAYS

HOSPITAL GETS NO MONEY FROM PALMER ESTATE.

The Property Is in Such Condition That There Is Little Probability That the Provision in the Will Would Become Operative—Repugnancy Claim Was Upheld.

The Janesville city hospital will not get \$500 per annum from the estate of the late Dr. Henry Palmer, as had been provided for in the will, Judge Sale deciding this morning, that the clause in the will making that provision, was void because of repugnancy.

The will, it will be remembered, provided that after certain legacies to the children had been paid, that the residue of the estate should go to the widow in fee simple. It also provided that \$500 per year should be paid to the hospital association if the income amounted to \$1,500 or more each year.

A petition was filed in the county court asking for a construction of the will, and this point was raised by Sutherland & Nolan, who appeared for the heirs. Testimony was introduced showing that the estate was in such condition that there was not much probability that the hospital would ever get the benefit of the provision in any event. The point was argued by Sutherland & Nolan, for the heirs, and Whitehead, Matheson and Smith for the hospital association, last Thursday. Judge Sale today rendered his decision upholding the position of Sutherland & Nolan.

The will was rather roughly drawn, and contained contradictions that upheld the claim of repugnancy made by the attorneys for the heirs.

DEATH ENDS EARTHLY WOES

Funeral of Mrs. Tipney.

All that was mortal of the late Mrs. Lucy Tipney was laid to rest, this afternoon, in Oak Hill cemetery. Services conducted by the Rev. W. H. Wotton, were held from the Cornelia street home at 1:30 o'clock, and from the Trinity Episcopal church at 2 o'clock. A large number of friends were in attendance, and the pall bearers were: Orlando Baker, John Slightman, John Thoroughgood, Samuel Clemons, William Winkley and John Yardy.

Otto Taball.

Otto Taball, son of Mrs. A. Taball, died this morning at 5 o'clock, aged ten years. The little fellow got wet a few days ago, and caught cold. Inflammation of the brain ensued and death came rather suddenly. The funeral will be held from the house Thursday afternoon at 2 o'clock and from St. John's Lutheran church at 2:15 p. m., Rev. G. Kaempfle, officiating.

Funeral of Mrs. Wollitz.

Funeral services over the remains of Mrs. Theresa Wollitz were held this morning from St. Mary's church at 10 o'clock. The Rev. R. J. Roche, officiated and the interment was in Mount Olivet cemetery. The pall bearers were S. Kuster, J. Prax, W. J. Nikls, J. Wallick, P. Toldrian and V. O. Zier.

John N. Nelson

Beloit, Aug. 4.—John N. Nelson, aged 78, a resident of this locality since 1845, died yesterday. He was formerly engaged in the milling business.

TWELVE and one half and 15 cent dummies at 9 cents a yard. Bort, Bailey & Co.

ANYTHING you can think of in the way of dry goods can be purchased for much less at our August sale than at other times. T. P. Burns.

A PERSON might mistake our shirt waists for birds, they "fly" so fast this hot weather. J. M. Bostwick & Sons.

A CARELESS unknown bicycle rider ran into James Moutat last evening about 7:30 o'clock at the corner of Main and Court street, knocking him down and breaking his left arm at the wrist.

If necessity is the mother of invention, the hot spells in summer must have had something to do in bringing about the modern shirt waist. 65 cents buys a dollar and a quarter waist, and 43 cents a seventy-five cent one at J. M. Bostwick & Son's.

In the municipal court this afternoon the assault and battery case of John Brennan against Daniel Sheridan, John Bernard, William McGrane, John Tierney, Thomas Kehoe and Philip Sheridan came to trial before a jury of six. John Cunningham appearing for the state, while Sutherland & Nolan appeared for the defendants.

NO COMMITTEE IS IN CHARGE

This May Have Bearing on "Damnable Outrage on Tax Payers"

The Recorder this morning says that the hiring of the two experts to look into the cost of the water works "is a damnable outrage on the tax payers these close times, and must be stopped." If The Recorder feels that way about it, why doesn't it consult Mayor Baines. The experts were hired by the committee of the old council having the matter in charge, as it was instructed by the council. When the new council came into power, Mayor Baines appointed no committee to finish the work—notwithstanding that a majority of the old committee were not returned to the council. Therefore, the assumption is that The Recorder may be whipping the mayor over the shoulders of the aldermen who have no responsibility in the matter whatever. Perhaps it would be well for The Recorder to advocate the wise policy of ex-Mayor Thoroughgood, who placed all matters of importance in the hands of some committee, and saw to it himself that the business was attended to.

THE WIZARD AND THE WHIP.

He Performs Some of the Most Marvelous Tricks With It.

A decided sensation has been created in Vienna by a man who probably stands alone in this world in his particular line of performance, says "Tit Bits." This gentleman's name is Pisk-slug and he is an Austro-Hungarian by birth. He is an expert, or rather a phenomenal artist, in the use of the whip.

The first thing he does is to take a long lashed, stout handled whip in each hand and with orchestral accompaniment proceed to crack or snap them at a terrific rate. The sound made by his whips in this manner is graduated from a noise like a rifle report to the soft click of the billiard ball. It makes a curious sort of music and serves to show how he can regulate the force of each stroke.

More interest, however, is evinced when he seizes a vicious looking whip with an abnormally long lash. It is provided with a very heavy handle of medium length. This is his favorite toy and what he can do with it is really wonderful. He first gives an idea of what fearful force there lies in a whip lash in the hands of an expert.

A large frame, over which is stretched a calf or sheep skin, is brought on the stage. This is marked with dots of red paint. The man with the whip steps up and swinging the lash around his head lets fly at the calf skin. With every blow he actually pulls a piece right out from the leather, leaving a clean cut hole.

These pieces are distributed among the audience to show that there is no trickery about the performance. After this he takes a frame with three shelves. On these there are a dozen or more of medium sized apples lying very close together and provided with large numbers. Any one in the audience may designate which apple he wishes struck and the unerring lash snatches it out like a flash.

A still more difficult feat is the snapping of coins from a narrow necked bottle. A small piece of silver about the size of half a crown is put over the cork of the bottle, which stands on the edge of the table. The whip artist, without appearing to take any sort of aim, sends the long lash whizzing through the air and picks off the coin without jarring the bottle, much less breaking it.

HOW TO TREAT PIANOS.

Half the Instruments in this Country Catch Winter Colds.

Half the pianos in this world catch winter colds exactly as we do, says the New York Mercury. They get hoarse, or have a cough, or a stiff note, or some similar complaint which cannot be cured by home remedies, but require tedious and expensive doctoring. In order to prevent these avoidable ailments it is as well to know how to take care of the Piano. Each spring-cleaning housewife who is having the domestic piano "put to rights" during her present upheaval of the household should very carefully observe the instrument. A piano should be kept in a moderately warm room where the temperature is even, say 60 or 70 degrees, the year round; not cold one day and hot the next. The instrument should not, however, be too near the source of heat. It should be kept closed and covered with a felt cloth when not in use, particularly in frosty weather.

Always place the piano against an inside wall and a little out from it. When tuning or repairing is necessary employ a responsible and expert workman. Do not allow children to drum on it. A professional musician may expend a like amount of strength upon the keyboard but if the right keys are struck much less harm is done than when children amuse themselves. Avoid littering the top with bric-a-brac, as it affects the tone of the instrument.

A well-known maker recommends that the case be frequently wiped off with a chamois skin wrung out in tepid water. Where the case is very highly polished and dark this is absolutely necessary and little else will serve to remove the dust which settles in the fret work.

To remove finger marks and blue mold, mix thoroughly two tablespoonfuls of salad oil and one tablespoonful of vinegar. Rub on a little of this mixture with a soft rag and polish with a woolen cloth.

Performing a Burglar.

A man named Frank March recently broke into a doctor's house in Camberwell, England. The doctor happened to be in and he at once hurled a bottle containing peppermint at the intruder. March, who was seeking money, got nothing but a scent. It clung to him when he was taken before the Lambeth magistrate. The odor of the peppermint had been the clue that led to his arrest. The circumstantial evidence against him is, literally, strong, as the Camberwell doctor never dilutes his peppermint. The housebreaker will set up the defense that peppermint is a pleasing perfume and that he cannot therefore be considered in bad odor.—New York World.

Tardy Penitence.

"Why won't mamma's little boy tell mamma what he's been stuffing himself with?" anxiously asked the maternal parent, bending over the couch. "You have been in the pantry, Johnny, eating too much of something you ought not to have eaten at all, and you won't tell me what it is. It makes me sick at heart!"

"It makes me sick o' tart, too!" moaned Johnny, turning his face to the wall.

But mamma did not catch on.—Chicago Tribune.

SICK-POISON.

WHAT IT IS, AND WHERE IT COMES FROM.

Sick-poison is what makes you sick, irritates your nerves, disorders your functions, saps your strength, makes you miserable.

Different diseases have different poisons, some have several, indigestion more than any.

That is, the symptoms of indigestion are caused by the poisons which are created by undigested food.

When you are sick, try to get rid of your poison.

It is often easier than you think, for all nature is helping you. Only the poison is obstinate, but the first step is to go to the root of it.

The poisons of undigested food, which cause lethargy, headache, dizziness, weakness, bad taste, stomachache, fever, flatulence, nausea, constipation, loss of appetite, jaundice, anemia, neuralgia, rheumatism, etc., these poisons can be swept away and annihilated by the Shaker Digestive Cordial.

Curing the stomach and helping it to digest food, when it is too weak to do so by itself, will purify your system of poison and renew your strength and health.

Shaker Digestive Cordial, a pure, vegetable, digestive tonic, made by the Shakers of Mount Lebanon, will cure all disorders caused by the poisons of undigested food when nothing else will give any relief.

Sold by druggists. Ten cents for a trial bottle.

GOLD BUT NO FOOD.

Experience of an Amateur Pirate on the Chinese Coast.

It has surely fallen to the lot of few men to come near starving to death in a land of plenty, with over \$900 in gold in their pocket—nay, by reason of that very fact. I had shipped at Rangoon on board a steamer bound for Shanghai, says a writer in the London Standard. When I signed she was flying Jardine's flag at the main but I believe she carried the ensign of every nation and half of the house flags of the world in her signal locker. An opium smuggler I was prepared to find her but that her chief business on the waters was piracy of the vilest sort and unredeemed by a glint of romance came upon me certainly as a revelation. We attacked no ships as far as I know, but, handled with marvelous skill and knowledge of the intricate coast navigation, she would run in after nightfall among the rocks and banks where one would expect a sampan to take the bottom, while shrieks, flames, the report of firearms and clash of steel would testify to the descent of my delectable shipmates upon one or another of the numerous fishing villages which fringe the shores of the China seas. After four months' duress I struck a blow for liberty. My little hoard of morphia—jealously guarded toward this eventuality—deepened the narcotism in which the whole crew lay steeped after a ghastly debauch as we rode at anchor and, forsaking all my goods and chattels and seizing in lieu such moneys as I could find, I dropped into the dingy and pulled off, shoeless, hatless, arrayed only in a shirt, trousers and belt, containing the above named sum (close on £200), hoping to reach a German gunboat which had been sighted in the offing earlier in the day. But the night was thick and in less than an hour I found myself close in shore. The question of what to do was speedily settled by the boat capsizing among the breakers, leaving me no alternative but to land. Day was breaking and I lay till next morning in a tomb cut above the road in the hill side and for the next three weeks I nearly perished for lack of nourishment, not daring to exhibit a gold piece, for I had no weapon and would certainly have been robbed and murdered. I would gladly have thrown away all but one piece, but there was no single small coin in the sum total, and the result would have been the same. Though a good walker at that age (I had made a record of twenty miles not long before and could cover 300 a week without a blister) I accomplished no more than 200 miles in twenty-two days—traveling only by night and hiding in tombs or ditches all day, often rushing back to my last deserted lair in terror of the advancing sun when no suitable place of concealment hove in sight. With paddy and plantains snatched here and there I managed to exist during those awful weeks. Chan-Chan is not regarded as a terrestrial paradise by those Europeans whom fate malign has compelled to sojourn there; but Waihalla was never hailed with greater ecstasy by the world-worn pilgrim than was that celestial sink by myself. Toward the twentieth day the smell of meat cooking absolutely overcame me one morning and at the peril of my life I emerged into the light of day and laid felonious hands and teeth on what I believed was part of a baked cat, in the temporary absence of the legitimate landlord thereof.

SOMEWHAT MIXED.

He Knew There Was Trouble Waiting for Him at Home.

He was a pale faced, red whiskered man and he was leaning against a horseless wagon, which was lying on its side near the road fence, says the New York World.

"Stranger," he began, as I approached him, "ken yer tell me wher' I am at?"

"You are about three miles from Grassville village and four miles from Liddfordtown," I replied.

"Kin yer tell me the time?"

"Seven o'clock."

"Mornin' or evenin'?"

"Morning."

"Then it's me," he said, with a sigh.

"What do you mean?" I asked.

"Well, stranger," he began, "jis 'fore you come along I woke up an' found meself lyin' under this yere wagon, an' fer the life of me, I couldn't tell which one of two things I had gone an' done—lost a horse or found a wagon. Now I know that I've lost a horse; now I know that I'm the great big gawk that left Grassville fer Liddford with a load of taters yisterday mornin', an' left Liddford fer Grassville with a skinkful of whisky last night."

"Stranger," he continued, "take a good look at my face now, an' then jist wait here till I come back from Grassville with the horse, an' you'll git a purty good idee of the fightin' qualities of my ol' woman."

I did not wait.

Social Problems and Their Remedy.

Not a change of drinks, but a change of hearts is what men need. Not changed environment, but divine power to change their own environment. Then it shall be that the vexing social problems of all kind will solve themselves. In other words, the simple gospel of Jesus Christ is the panacea for all our ills.—William F. Rick.

"Boys will be boys," but you can't afford to lose any of them. Be ready for the green apple season by having DeWitt's Colic and Cholera Cure in the house. C. D. Stevens.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething, with perfect success. It soothes the child, cures the colic, cures the wind colic, cures the best remedy for diarrhoea. Twenty years.

Nowadays when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep doing until she drops.

Working in this way has manifold evils. The most common trouble resulting from over-exertion, either mentally or physically, is constipation of the bowels, with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually. Sold by druggists.

NOTICE is hereby given that a regular meeting of the common council of the city of Janesville, held at the council chamber, on the 27th of July, 1896, and that the same will be acted upon by said council at a regular meeting thereof, to be held at the council chamber, in said city, on the 10th day of August, 1896, at 8 o'clock P. M., of that day.

A. E. BADGER, City Clerk.

Dated Janesville, Wis., August 2, 1896.

AN ORDINANCE regulating the storage and sale of gunpowder and other explosives.

The Mayor and Common Council of the city of Janesville do ordain as follows:

Section 1. No person shall keep, sell or give away gunpowder in any quantity within the city of Janesville without permission in writing signed by the mayor of said city. Provided, however, that this section shall not apply to persons keeping gunpowder in quantities less than five pounds for their own personal use, or in magazines as hereinafter provided.

Section 2. No person shall keep or store in any building in said city any nitro-glycerine, dynamite, giant powder, or other similar explosive more violent in its nature than gunpowder.

Section 3. No dealer in gunpowder shall keep or store any quantity thereof greater than fifty pounds at any one time at his place of business in said city.

Section 4. Every dealer in gunpowder shall keep such powder in a safely constructed box of such form and size as shall be approved by the chief engineer of the fire department. Such box shall be painted yellow, with the word "powder" printed or painted thereon in black letters not less than five inches in length, and shall be fitted with handles so that the same may be easily moved in case of fire, and such box shall be kept only in such part of any dealer's place of business as may be directed by said Chief engineer.

Section 5. All gunpowder kept within the corporate limits of said city, except as hereinbefore provided, shall be stored in the powder magazine established by said city, which magazine shall be under the control of a keeper to be appointed by the common council; provided, however, that the mayor and common council may by order or resolution grant permission to any quarryman or person engaged in any industry requiring the use of powder, to keep the same upon the premises occupied by him, in a magazine to be approved by said chief engineer, and at a distance of not less than twenty rods from any dwelling house or other occupied building.

Section 6. The keeper of the city magazine shall receive all gunpowder delivered for storage at such magazine, and shall give his receipt therefor, and be responsible for the same, and shall, upon demand, deliver any powder stored in said magazine to the owner thereof, or his agent.

Section 7. The keeper of said city magazine is hereby authorized to receive and collect as his fees from the owner of, or person depositing powder in said magazine, the sum of one cent for each pound of powder so deposited by him if the amount so deposited does not exceed fifty pounds, and one half a cent for each pound in excess of fifty pounds.

Section 8. It is hereby made the duty of the Chief Engineer of the Fire Department, to see that the provisions of this ordinance are observed; and he is hereby authorized to enter any store or other building within said city to ascertain if gunpowder be kept therein in violation of this ordinance; and if any quantity of gunpowder in excess of fifty pounds be found in any such store or building, said chief engineer shall cause such excess to be removed to said city magazine at the expense of the person owning the same.

Section 9. Any person who shall violate any of the provisions of this ordinance, or who shall resist the chief engineer of said city when acting in pursuance of the authority given to him by Section 8, shall pay a penalty of not more than fifty dollars nor less than ten dollars.

Section 10. All orders, ordinances and resolutions conflicting with the provisions herein contained, are hereby repealed.

Section 11. This ordinance shall be in force and take effect from and after its passage and publication, which publication shall be for three successive days.
